The pagoda tent

The pagoda tent is an extremely elegant tent that can remain outdoors for long periods of time. It is guaranteed to meet all stringent requirements. With a sturdy frame, extremely strong sails and an incredibly elegant appearance, the pagoda tent impresses whatever the occasion or event. Thanks to the cross cables, the assembly remains accessible, yet the construction is extremely sturdy. Moreover, you can easily couple several tents to create one large water- and wind-proof surface.

DID YOU KNOW...

45 mins

... you can set up the pagoda tent with two people in just 45 minutes?

365
DAYS

... that the pagoda tent is so sturdy that if properly anchored, you can leave it outside for years?

The pagoda tent: Flexible, strong and stylish

CLOTH:

- Blockout PVC of 820 g/m²
- Fire retardant M2
- UV resistant
- mould- and rot-resistant
- Thermally welded seams for optimal watertightness
- Highfrequency welded windows
- Smooth canvas for easy maintenance
- Additional tensioning points for optimal roof tensioning

FRAME:

- Anodised scratch-free aluminium
- Diameter: 63.5 mm
- Wall thickness: 3 mm
- Keder profile for mounting side walls
- Corner pieces made of cast aluminium: wall thickness 6 mm, reinforced edge 9 mm
- Sturdy footplates

PRINTING:

- Entirely printable
- Full-colour printing on both roof and side walls
- Deliver your own design or let our designer make a proposal

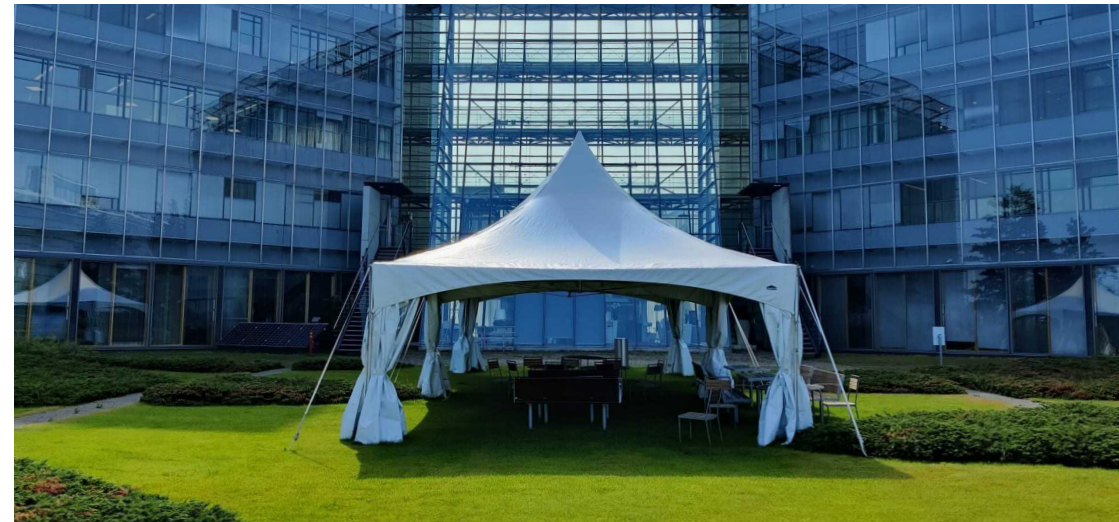

OPTIONS AND EXTENSIONS:

- Panoramic roof
- Modular thanks to vertical connections and rain gutters
- Closed side walls, side walls with window or panoramic side walls
- Each side wall has a zipper in the middle, so each side can be used as an entrance or exit
- Rain gutters drain water to the sides
- Spare parts available separately

Thanks to the extremely sturdy canvas and ultra-strong aluminium tubes, the pagoda tent can hold its own in almost any setting.
